 (the best)

Connie,

One of the most honest people I know. I'm still trying to figure out which of us is the craziest (though I know I am). Good Luck in all you do (but watch out for Robbie!). Remember the 1974-75 Champions (us!) See ya in band next year. RMR.

P.S. Remember Steve & the band! Banquet! And don't forget he's mine!

Cheryl "77"

Connie, I'm a cute & really nice girl who I've known for a few years now. Remember all the fun with Mr. Ballard & of course Mr. Edwards. "Mr. Hall" Good Luck in everything you do. I will be the guy to remember me always! Love, Kim "77"

Connie, to a really sweet and cute girl who I just met this year in gym. Remember all the boring things in our classes together. Good luck with the guys and stay cool. I hope you see ya next year. Denise "77"

Connie to a very cute and really smart girl. Thanks for all your help in geometry last year.

Connie, see ya next year in some of my classes maybe. Charlie

Connie, your really very cool, cute and far-out. your a very good friend and I hope we stay that way -

Connie, to one of the craziest people (I think you are one!) that I know. I owe you for about 3/4 of my english class grade. Remember me always. (god knows Debbie Mullins '77' (I couldn't forget a face like yours!))

Best of luck you for a really nice year with a wonderful time. Love, "77"

To Connie,
 real a real good nut & of
 the "fun" we had in
 Geometry class & in English
 assignments. I hope I have a nice
 year, I hope I have a nice
 summer. Judy
 "77"

To Connie,
 To one of the
 next best flute
 players in the band
 (no kidding). You're
 a great friend.
 Seeing you & the
 Band.
 R.M.J
 James "77"

To Jimmy,
 one of my best friends
 and best looking!

Will always remember you
 (How could I forget you?)
 You still say you a scientist
 & you figure out everything!
 Good luck with all the
 young women in your life
 although you don't need it.
 Well there's lot I could say
 but there's not enough room
 P.M.A

P.S. Like Debbie said
 "Keep a smile on your face
 it makes people wonder
 what you've been
 up to."
 With you it's hard to
 tell!
 "77"

Love ya!
 "79"

Love ya!
 "79"

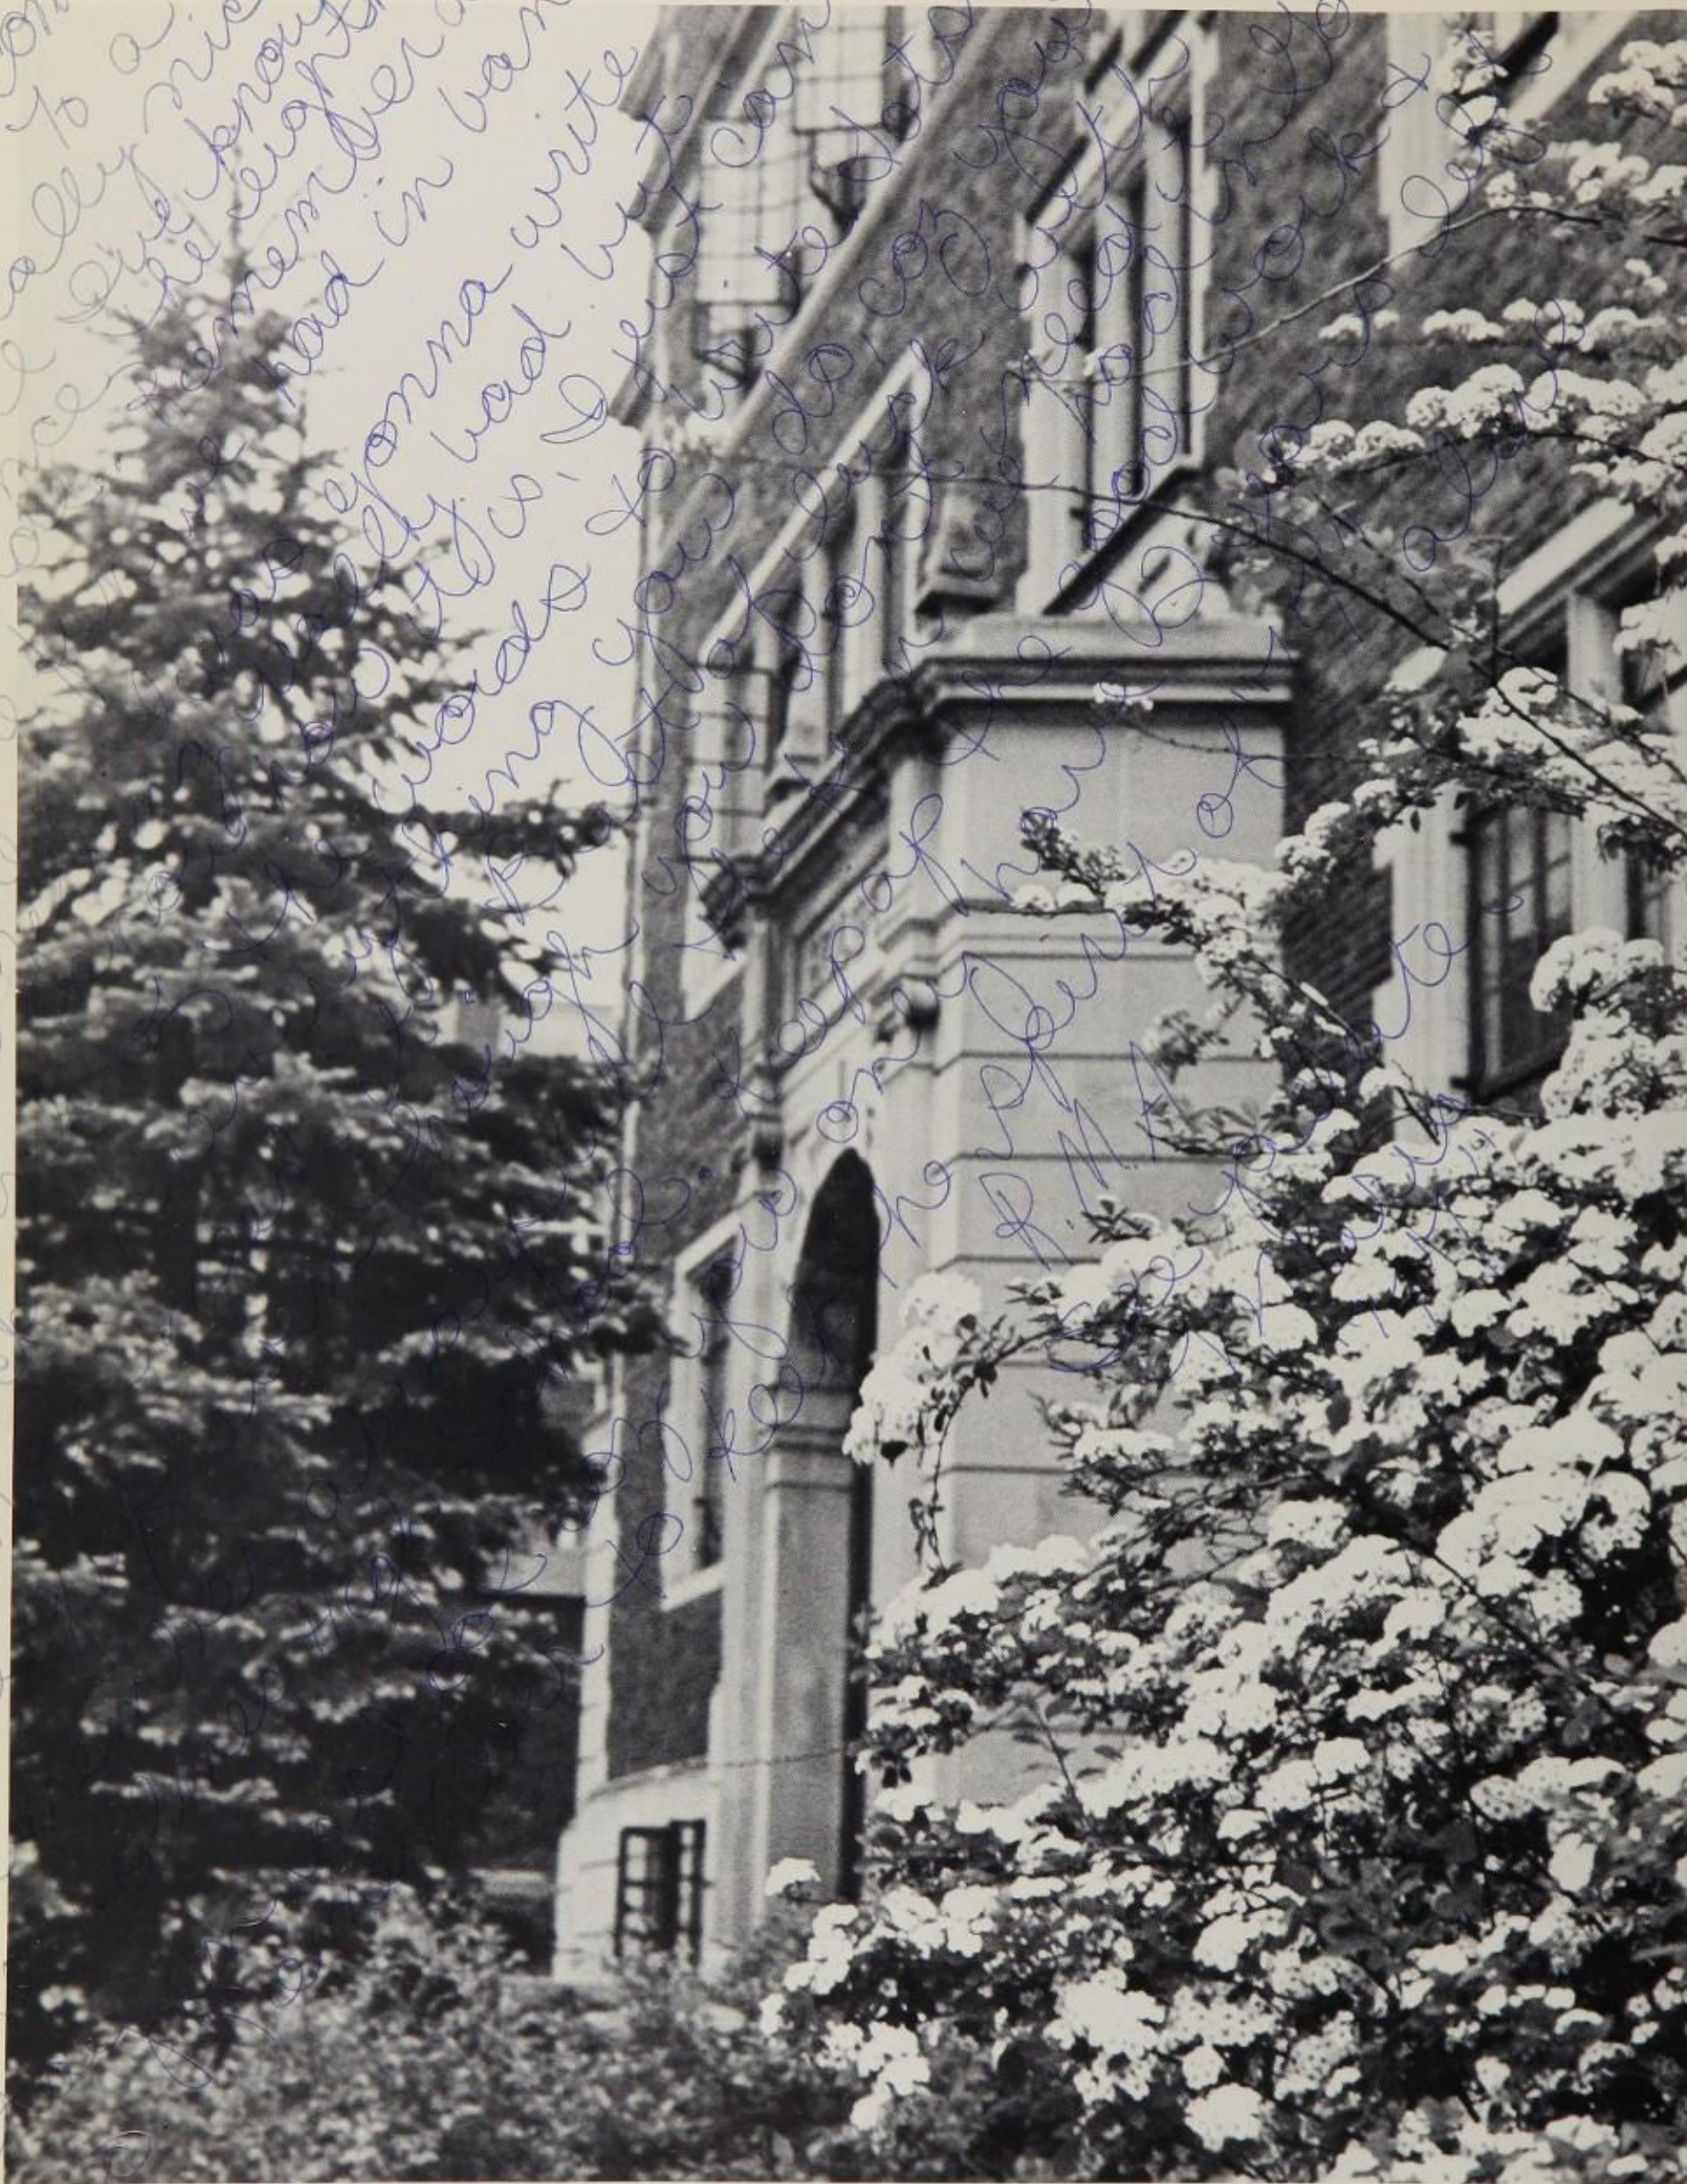

To Connie,
 a really
 great sweet girl. And
 the Chinese girl.

The years fly by, each day increasing its pace, until they become only blurred visions. The memories cloud with the passing time. We can always go back to the place, but we can never go back to the time. We want to stop time, but we cannot even slow it. And then, even the place changes from what we knew. Only in visions can we recapture some semblance of the past.

“Life — so they say
Is but a game and they
let it slip away
Love — like the autumn sun
Should be dying but it's
only just begun
Like the twilight in
the road up ahead
They don't see just
where we're goin'
And all the secrets
of the universe
Whisper in our ears
And all the years
Will come and go
And take us up, always up;
We may never pass this way
again
We may never pass this way
again . . .”

VOLUME 74

LEST WE FORGET 1975

Physical appearances of people many times change greatly through the years. But the concrete and steel that is Holmes High changes very little. These visions will allow us to keep "The Home of the Bulldogs" clear in our memories for years to come.

JUNIOR PROM '74

The Time — May 3rd, 1974. The Place — Stouffer's Cincinnati Inn. Though tradition seems to have passed on many campuses, the annual Spring Prom remains quite popular. It almost seems to be a

last vestige of yesteryear's school dances. Bill Martin's group did a fine job of entertaining, and no "streakers" were seen during the pleasant evening. "Colour My World" was an unqualified success, giving us the opportunity to get into clothes and an atmosphere that seem to be rarer with each passing year.

For many years, girls did not participate in an organized sports program. In most schools, coaches were hired primarily as instructors, lacking many skills required for coaching. Facilities were poor, equipment in poor condition, when even available, and practices were experimental rather than developmental. Now, here at Holmes, and in many other high schools and colleges, girls are finding that sports can be one of the greatest satisfactions in school life. We are blessed with fine coaches, including the two innovators and promoters of Holmes' girls sports program, Ms. Joni Mitchell and Ms. Donna Wolfe. Girls can choose from a variety of teams — football, basketball, volleyball, track and field and softball — according to their individual interests. The teams grow and learn together. It is a new and exciting experience for girls who have never participated before. The games are self-satisfying in that the motivation behind them is simply enjoyment and perfection of skills. The staff salutes girls' sports with a wish that they will grow in prestige and popularity.

STUDENT LIFE

Students — what high school is really all about. Without us, and our potential value to society, there would be no reason for any of this. We are the hub of the school and all that occurs in it — laughing, crying, praising, complaining, cheering, jeering, succeeding, and failing. All students know the complete rainbow spectrum of these emotions. And though many of us will never have some of these feelings again, we will always remember the most interesting years of our lives, of which fully one third is spent at Holmes.

. . . and so we go to visions for our memories. They whisk us back to places, times and faces that we laughed and cried about. And though visions never really take us back, they do bring us reflections, impressions and emotions we might long have forgotten without them.

"So I want to laugh while the laughin' is easy
I want to cry if it makes it worthwhile
Cause you make me feel like I'm more than a friend
Like I'm the journey and you're the journey's end
I may never pass this way again
That's why I want it with you.
We may never pass this way again
We may never pass this way again . . ."

FOOTBALL

Head Coach Lou Cynkar comments on the '74 football season: "If you take away five plays and two field goals, our record would have been 9-1. It would have been very easy for our young men to quit any-time during this season, but they certainly did not, regardless of how a small minority of individuals felt about the sport."

"The brightest spots in our season were that, although we were low in the standings, we finished second in total offense and second in defense in the conference."

"This season was a giant step forward in building a program. Our only regret is that our seniors won't be a part of the seasons to come."

"We expected more in '74, and we got it. But we will really come alive in '75."

"THEY DID MATURE" BULLDOG BASKETBALL

"Bulldogs may mature later." So read the headline in the Kentucky Post basketball supplement for the '75 season. And they were right. After a slow start, the Dogs, a young pack led by juniors Mike Moore, Dwayne Morris and Bruce Tilley, began snarling, to the dismay of their opposition. Most of the losses came by only a few points, and as a topping to the season, the Bulldogs captured the Boone Co. Christmas Tourney title. As this book went to press, the Dogs were improving rapidly, having just whipped highly touted Holy Cross, 72-66.

BULLDOG BASEBALL

Some comments on the baseball team from head coach Tom Haney:

"Last year's team was one of the finest in years, winning the NKAC and finishing second in the region to Holy Cross. My only regret is that I did not get to work with them the year before. If I had had that opportunity, I feel the team would have been a contender for state champs."

"This spring we have only one starter back, a very young club. Only three seniors will return. Juniors make up the nucleus of the '75 team. This year, we will emphasize hustle, speed, and defense."

WRESTLING

Though the Bulldog grapplers had a somewhat disappointing season, new coach Roy Gilfedder sees a brighter future. "We will lose only three seniors from this year's squad, so we will have experienced men next year, including an eighth grader, three freshmen, four sophomores, and four juniors. Our outstanding wrestlers this year were John Lindsay, who in his first year won five and lost three, Dean Davis, who was six and two, Dave Thueneman, six and two, and Marcus Knoerl, who won four, lost two and tied one."

BULLDOG TRACK

On Cross Country:

"The most surprising and satisfying aspect of this year's team was the performance of senior Mike Gullett", said Coach Charlie Jenkins with a slight grin. "He was a senior who surprised himself. In six years, Mike had never been a winner, but this year he had many firsts. He also set a new course record, running the 2 1/4 mile course in 11 minutes, 44 seconds, chopping 11 seconds off the old record. In addition, he went to the state meet, along with Terry Jagers and Mark Abell, where they all performed well."

"We lost some people from last year, but we still got some good performances from Abell, Tim Kelly and Joe Dryer, all of them sophomores, and Jagers, as usual, was always dependable, always 'up front'."

"We were not a three man team, as many thought we would be. All of the runners were very consistent this year. It was a good season."

INTRAMURAL BASKETBALL 1974-75

The Intramural Basketball Team Captains for 1974-75 are: Left to right, Mike Hibbard, Chris Comer, Carl Lentz, Lebron Robinson, Dennis Craven, Mark Fisk, Bill Huenefeld, Ted Wilham, and Mike Voorhees.

For several years, Holmes has not had an intramural basketball program. This year, Mr. Gary Huhn sponsored a new program that was quite successful. Not only did it attract some good ballplayers, but it also attracted a fair number of fans to the fieldhouse, even though the games were played at the early hour of 7:45 before homeroom. Players on the ten teams were selected by appointed team captains, and each team played one game each week.

Games consisted of fifteen minute halves in which the clock kept moving except for the last minute of each half. Mr. Sellers and Mr. Young were the officials.

At season's end, the team headed by senior Lebron Robinson won the trophy by defeating senior Pete Wingate's team. Standout players on Lebron's team included Billy Hickman and Girard Crosby. The program was a success and is expected to continue next year.

JUNIOR REVUE

Among the other acts, a "flasher" hit the stage during the annual Junior Revue, which was presented by the juniors on January 29. Featured members of the class displayed their talents to the theme of "The Spirit of '76."

The majority of the audience enjoyed the show (even the seniors!), with the excellent band getting a lot of the praise from the viewers.

The band was made up of Willy Sechrest on trumpet; Tim McCord on sax; Brenda Sowder and Tammy Lauterbach, piano; Bert Woods, trombone; Jeff Evans, drums; Jeff McLemore, bass. The group performed both the junior and senior class songs, "Colour My World" and "I've Been Searching So Long" impressively, with vocal help from Tanya Carr on "World" and Megan Huff, Doug Linneman and Mindy Gunther helped out on "Searching." The group also did a fine rendition of Herbie Hancock's "Chameleon", which drew a great response from the spectators.

Holmespun critic Bert Beckman praised the show, calling it "very good, considering the group had only three real rehearsals before it was presented."

"Isn't that typewriter working? Well, then, we'll have to find someone who knows how to fix it, because if we don't get this copy done, we'll never make that deadline."

"This can't be right. I never heard of a student named Ken Smurthel."

"Hey! Did you know that we have a picture of the principals on the 'It's Academic' team page?"

"If we can just sell twenty more subscriptions, we can keep the yearbook out of the red."

"Good news, Kenny. You've only got 25 more cases of yearbooks to carry from the bookstore to the Science Building."

LEST WE FORGET STAFF

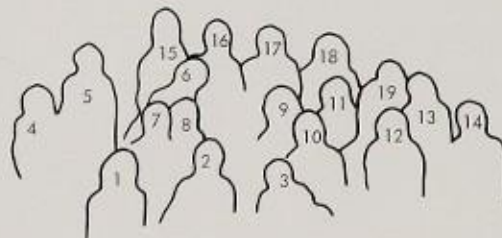

THE HOLMESPUN STAFF

We spoke with Jim Tackett, senior editor of the Holmespun. "I think the role of the Holmespun is to report the school news to the reader, to be an historical record, including all information that provides a permanent record of the school year. It should attempt to explain the meaning and significance of the news, provide leadership, entertain, strengthen school spirit, provide a forum for unrestricted exchange of ideas and opinions, educate the reader, crusade openly for changes to improve the school and student body, serve as a check on student council and administrative decisions affecting student life, and it should promote school functions."

"The most enjoyable part of this job is in seeing the finished product. A real feeling of pride goes through you as you see the four pages of print that you've sweated over for over two weeks appear in black and white."

“PROVIDING A FORUM”

HORIZONS — "A FORUM OF CREATIVITY"

Co-sponsor Mr. Tucker: "Mr. Spurlock and I want to really improve Horizons this year by the simple, classic method of motivation by reward. Response to pleas for stories and poems the past couple of years has not been what we would really like. So this year, we are having contests with cash awards for the first time. Already, it has made quite a difference."

"We know the talent is here; we have seen it often before. By this spring, we hope our student editors will have seen and read some very creative efforts. Our hope is that this year's edition will contain some beautiful prose, poetry, essays, photographs, abstract art and cartoons. We have a good feeling that it will. It is a forum of creativity for the students that they can always turn to in the future to remember their experiences in expression."

"Oh, by the way, it's still only a quarter, too."

Mr. Tom McElfresh, movie and drama critic of the Cincinnati Enquirer and father of Vicki, Alison and Stephanie, visited senior composition classes in October, talking on the writing profession, films and famous people.

"Walking Tall and Billy Jack give us false feelings that violence is the way out of our problems, and they do so in a crassly commercial way. And the characters in these films are simply cardboard cartoon characters brought to life . . ."

"Criticism does not tell you what to think; it simply tells you to think . . ."

"Movie stars are celebrated people, but they are not gods and goddesses as many of us make them out to be . . ."

Enquirer Critic Tom McElfresh

"A CRITIC MAKES US THINK"

"Holmes National Honor Society consisted of one hundred three very active members for 1974-75. These members were selected by an executive committee composed of the sponsor, the advisers, the principal and the officers. Membership is based on a scholastic average of .88 or above, on leadership as evidenced in clubs and the community, on a willingness to give service to the school and community, and on outstanding character and not on any one of the four attributes alone."

"Major activities of the club this year were; Toys for Tots at Christmas time; Tutoring by the members after school and during study halls of junior and senior high students; Frisch's Day, which raises money for the two annual scholarships given by the group; participation in the Model United Nations Assembly with two delegations, and the induction ceremony. This year marks the first time, too, that honorary members were selected for the club. They were: Mr. Moeves, Miss Stephens, Miss Fugman, Mrs. Wright, Mr. Seta, Mr. Bauer, and Mr. Huhn."

HOMECOMING '74 — A RETURN

The question seems to be more and more noticable each year. Is Homecoming becoming nothing more than a popularity contest for a very small percentage of the student population? The question seems to pop up more and more as time goes on. We have no answers to that very difficult question.

But one thing is for sure — Homecoming should be a time when a former student, which we will all eventually be, should be able to return to the place of many important happenings in his or her life. We will remember the parades, decorating the halls, the pep rally, good and not so good football teams, wins and losses, pretty, smiling, nervous girls, the brassy band and the heady mixed odors of the autumn air, hot dogs and fresh popcorn. A swirl of humanity of all ages move around the old track every November.

What will we remember about this year's Homecoming when we return in years to come? Well, we did lose the football game, unfortunately, to Highlands by a score of 7-0. Mary Jo Abner was named the queen, and was obviously a very popular choice, according to the crowd reaction. The band played fine, the weather was relatively warm, and a lot of alumnae, which we will be soon, had a real fine time.

HOMECOMING '74

Though the Dogs lost 7-0 to Highlands, the crowd remained interested through the close contest and during the festivities.

At the half, the award winning Bulldog Band put on a fabulous show.

THE CHEERLEADERS

Senior cheerleader Kim Holloway says the most important job of the cheerleader is "to make the guys on the team feel they are playing for someone or something, and keeping their hopes high even when we're losing. They really appreciate all we do for them; little things like making signs or giving a few words of confidence. When they thank me for it I feel really great."

"One drawback is that sometimes I don't have enough time to get into other activities, but cheerleading comes first with us."

When asked if cheerleading might be becoming a thing of the past, Kim says, "No, I think at Holmes the athletes are really beginning to feel acceptance for us. The pep rallies seemed better this year than in the past, too. Being a cheerleader in high school is great and I'm sure it will be close to the same thing in college."

When asked to talk about the improved band, senior Debbie Talbert was quite responsive:

"I enjoy the challenge of competing and representing the school as a united group. There is a certain special stimulation in marching onto a field knowing we have earned respect as the Holmes High School Marching Band and then receiving a standing ovation from bands we have competed with and against. Every member is a small part of this large organization, and I have been proud to do my fair share of the work."

"I really don't feel that band is emphasized too much. It needs the full support of the student body. Fans are as important as participants. The students really need to get involved, one way or another. If the band was emphasized more, more students would get interested. This is important to school spirit."

Co-sponsor, along with football coach Lou Cynkar, Charlie Jenkins told us, "The idea of the varsity letterman's club is to develop a closer relationship between members of the different teams at Holmes. We also want to draw more attention to the achievements of our lettermen."

"In addition to this new club, we hope to begin a chapter of the Fellowship of Christian Athletes, to elect a scholar-athlete of the month and to have films, speakers and field trips."

When asked if this club was just a revival of the old "C" club, Mr. Jenkins replied, "No. We intend to be an active club. We want to attend all sports activities together, for instance."

CLUBS

The Explorer's Clubs are new ventures this year. The various branches of the clubs include the Business Explorers, sponsored by Ms. Jerri Sellers, the Military Explorers, sponsored by Mr. Dick Poe, the Health Careers Explorers, sponsored by Ms. Susan Matlack and the Interior Design and Art Explorers, sponsored by Miss Lynn Kling. The new clubs have regular meetings to discuss the new and different possibilities in each of these fields. One of the main goals of the group is to see first hand on field trips and through talks with representatives from each field just what futures are available to the members of each group.

MOREHEAD PERSONAL DEVELOPMENT INSTITUTE

Seniors Donna Sturgill and Terri Richards were chosen in the fall to represent Holmes at Morehead University's Personal Development Institute. They promoted our school at the Institute, which is designed to develop intellectual and social graces in individuals. They were awarded Certificates of graduation from the three day program, headed by Mrs. Adron Doran, wife of Morehead's President.

Mrs. Doran, Donna and Terri.

“IT’S ACADEMIC”

In contrast to past years, the It's Academic group had a very short season. Lack of practice seemed to be the reason for the fall, and this will be remedied come next summer. “The team was strong in English, general knowledge, current events and history categories. Vickie McElfresh, who was an alternate on last year's team, helped in the area of experience”, said Mr. Arnold, the sponsor.

“We thought we answered as quickly as our opponents, but we were weak in math and science, and, looking back, I wished I had held some summer practices.”

“On the positive side, it is rewarding to be associated with the caliber of students who participate in the program. They are bright, quick and able to make decisions under intense pressure.”

VOCATIONAL SCHOOL

CHOIRS

The various choir groups, under the direction of Mr. William Martin and Mrs. Barbara Curry, performed several concerts during the year, including the annual Christmas concert. Choir allows the student who likes music, but who is not instrumentally talented, to use one of the greatest instruments, the human voice. Choir offers an attractive alternative to band, and gives many the opportunity to belong to a large group that is productive and gets along quite melodically.

Upper right: Tim Childress, Darlene Talley, and Ruth Hart prepare for a performance in their new choir outfits. Lower left: Mr. William Martin, director of seventh and eighth grade choir, vocal ensemble and senior choir. Lower right: The vocal ensemble performs for the students during the Christmas program. The ensemble consists of select vocalists from the full acappella choir. These vocalists display a thorough sense of musical knowledge and a true love for singing.

Top — Mr. Martin performed on piano and electric piano with his seventh and eighth grade choir during the Christmas concert. Middle — Mrs. Curry and her ninth grade choral group, with Marla Yeager at the piano. Bottom — Mr. Martin leads the full acappella choir during the Christmas concert.

ART

Miss Betty Nordheim, art teacher, told us about some of the innovations in the art classes. "This year, the students are working with a lot of new materials — plastics, wood and metal. We are also doing craft projects for the Art Club."

"Probably the most important aspect of our department is that it enables the student to achieve personal satisfaction through completion of a project."

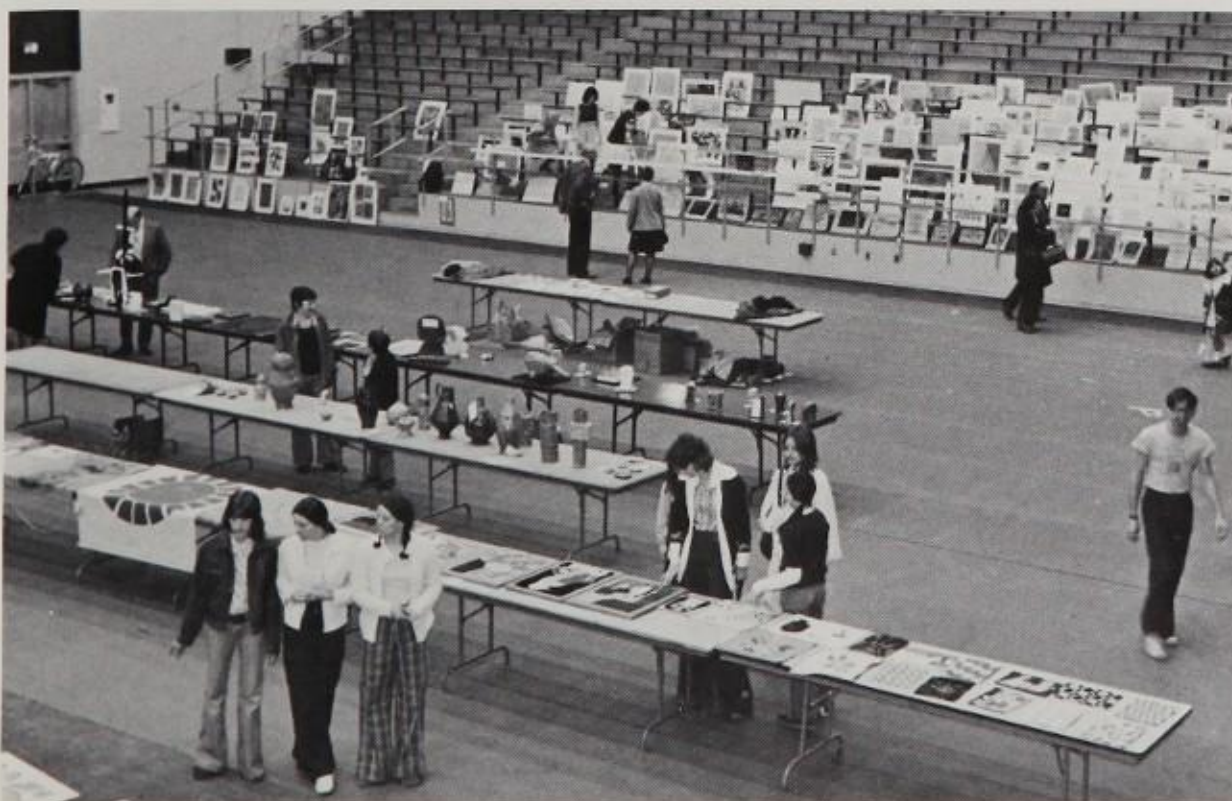

Some of the changes Miss Nordheim would like to see in the future include remodeling of the present facilities, enlargement of the faculty to accommodate more art students and an expansion of the subject through the use of new media.

"Art provides the student with cultural background."

ART SHOW

Time — April 7, 1974 Place — David Evans Fieldhouse — We hosted the annual Northern Kentucky Art Show, a forum for creative expression from eleven area schools. Young local artists created over 650 works, representing Kenton, Campbell, and Boone counties. Holmes Senior Art class sponsored this event and the Holmes Boosters furnished financial support. Much beauty was in the eyes of the beholders.

ENGLISH

Our English Department will introduce a pilot program in the tenth and eleventh grades that will involve Phase Electives in the 1975-76 school year. This will be quite a change from our present system of teaching traditional English. The student will have a much wider choice as to specifically what type of English he will take.

Mrs. Helen Heil, head of the English Department, told us about it. "This change will necessitate more work on the teachers' part. They have indicated they are willing to work hard in order to improve the course offerings. This is being done in many schools, and we are looking forward to this change in our curriculum."

Mrs. Heil feels that English plays a vital role in the students' whole education because, "It is the core of education, since it covers the reading, listening, speaking, and writing skills that are mandatory in all courses."

MATHEMATICS

Figures. They surround us. They give us answers, directions and limits. Like any basic aspect of our society, we couldn't operate without them.

Here, our fine instructors deliver courses from the basic to the most complex. And, like most our departments, math is continually striving for improvement. For example, this year, Mr. Charles Jenkins visited some of the other schools in the area to get some new ideas for the classroom teachers.

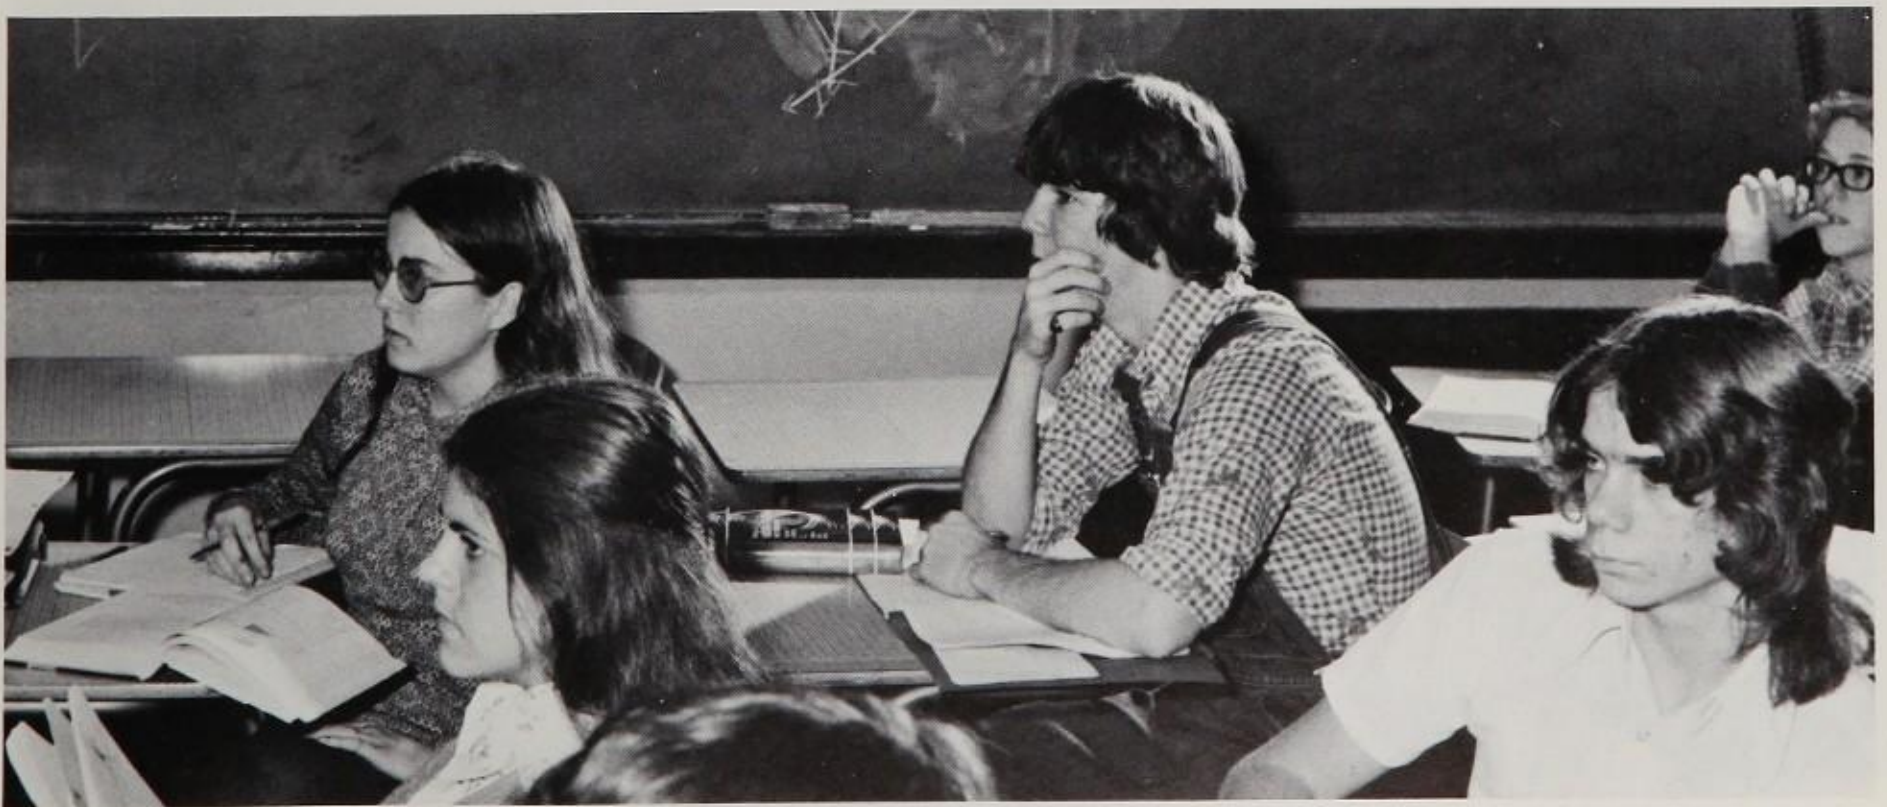

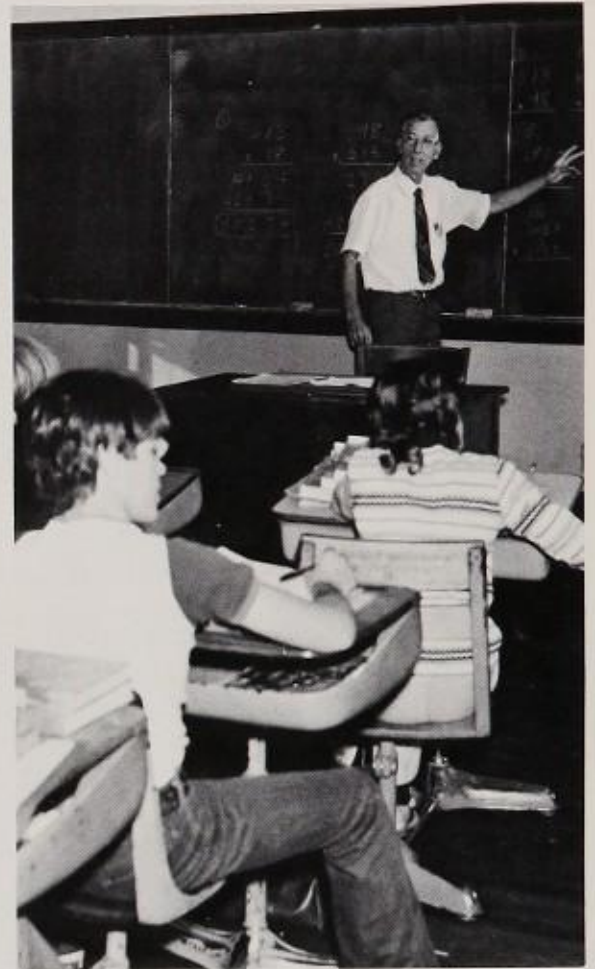

Top — Mr. Ankenbauer's Algebra students get some expert help. Middle — Mr. Schuckman goes over a problem with his Geometry class.

Sallie Hicks obviously understands her math.

SCIENCE

Mr. Tom ("Doc") Bauer, our resident mad scientist and physics mentor, obviously enjoys his work with students. He was voted "Teacher of the Year 1974-75" by us, the students, who, after all, are probably the best judges in this area. He combines a thorough knowledge of his field with the rare ability to "get it across" while making it enjoyable at the same time. Also, he can be very humorous, even when "corny."

When asked about his department's role, he replied, "I'm glad to see that we have started the program of placing certain students in the elementary schools to teach mini-lessons."

"One important benefit students receive from science is the familiarity they gain with our lab equipment and materials. Our courses all promote and exploit the individual's curiosity."

"It would be nice if we could have some smaller, homogeneous classes. Thus, we could also expand small group study, which would be another improvement."

"Sciences are important because they attempt to better acquaint the student with the hows and whys of many of the aspects of everyday life."

FOREIGN LANGUAGES

Mr. Krey, a French teacher, says that languages are valuable in that they "help the student develop the ability to communicate with and understand other people and cultures other than his own."

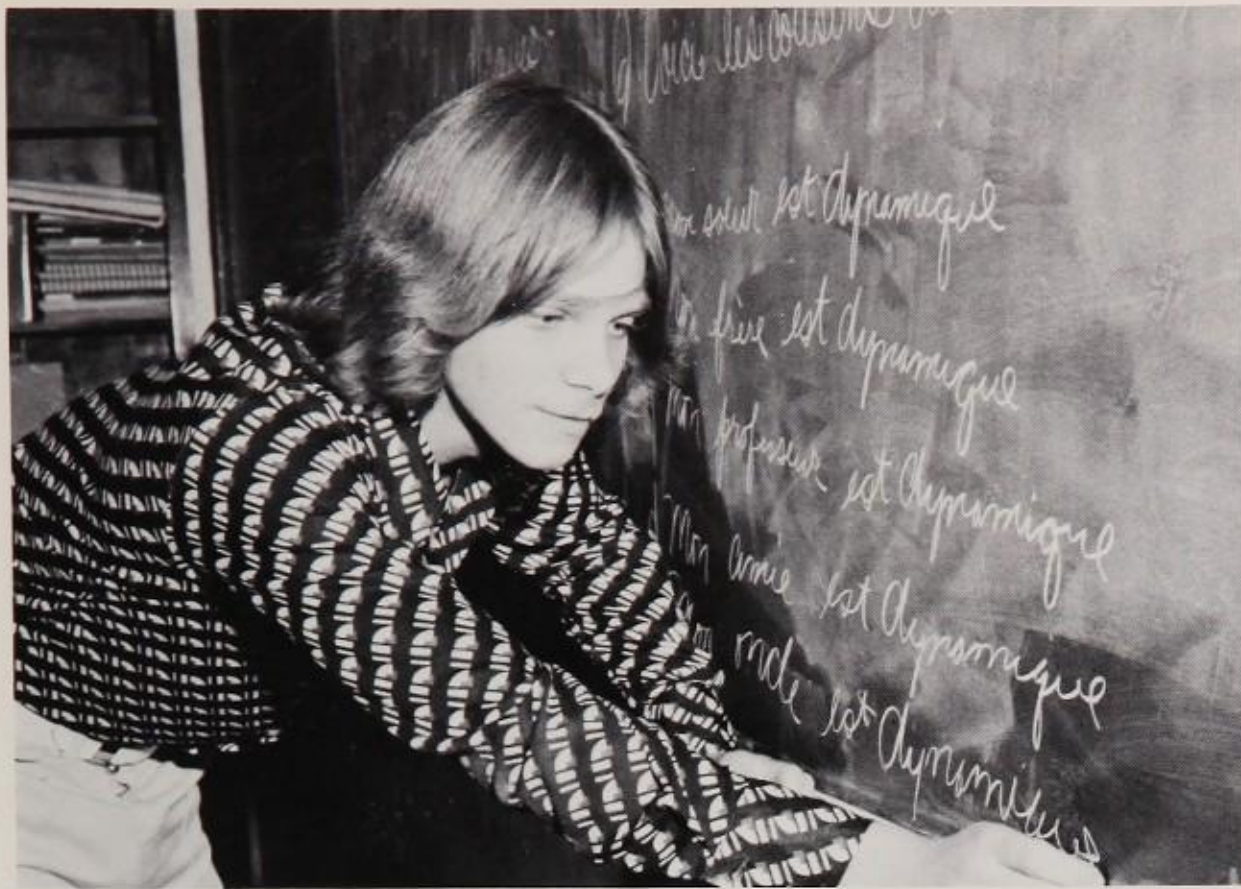

"One thing we would like to see is an increase in student enrollment foreign language."

"I feel that foreign languages foster an understanding of the people and the cultures. The student becomes aware of different ways of life and different points of view. Language helps to increase the enjoyment of travel, and helps increase appreciation of many people and places that we encounter in literature, movies and television."

Merci Beaucoup, Mr. Krey.

Middle — Mr. Krey makes a point in Francais. Bottom — Miss Gilson smiles at a reply in her French class.

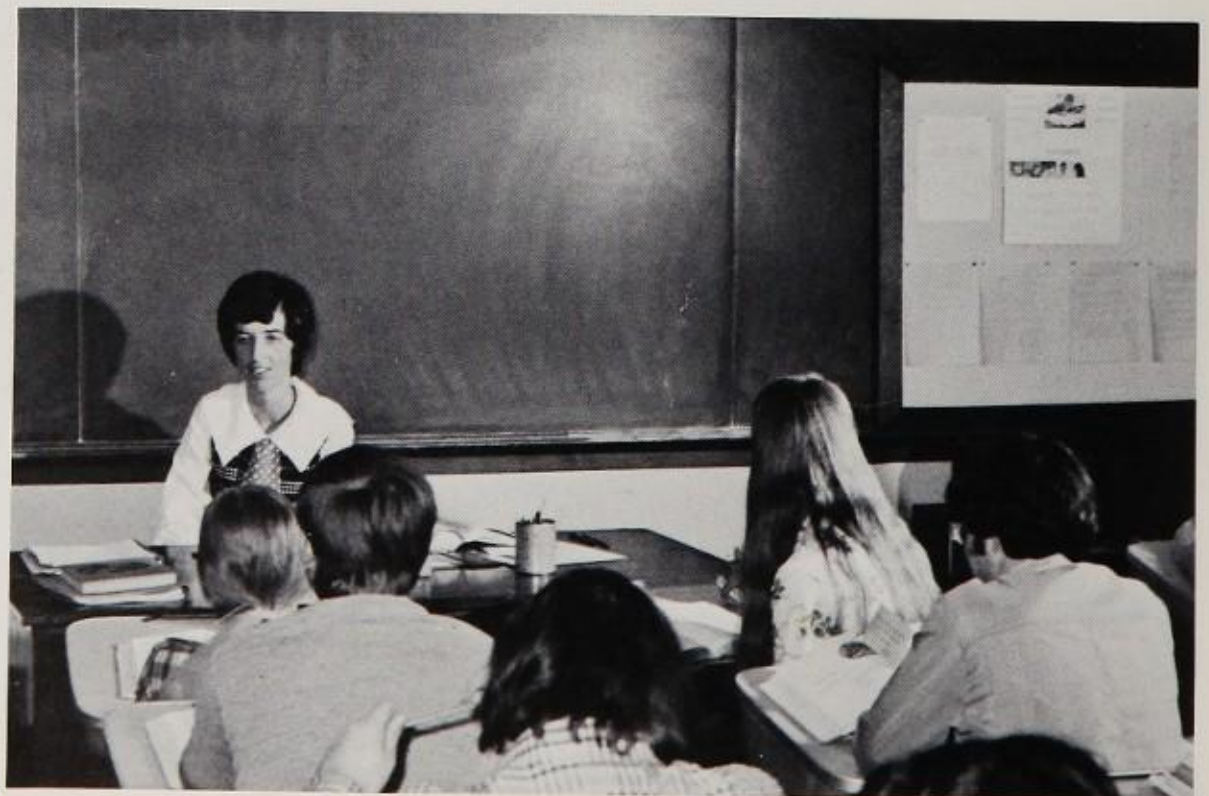

SOCIAL STUDIES

Mr. Truitt, head of the Social Studies Department thinks that social studies are important in education. "Social studies are basic units that are required. With these, we hope to develop better citizens with positive attitudes about their country."

When asked what changes he would like to see in the curriculum in the future, Mr. Truitt replied that he would personally like to see the classes grouped according to the abilities of individual students. History marches on . . .

Top — Mr. John Burns operates the lately very important economics class. Bottom Right — Miss Lyn Kling lectures on America. Below — Kim Thornberry ponders a point.

Mr. Lillick talks about his new Minority Cultures Class: "The goal of the course is to demolish myths and stereotypes many Americans accept about our minorities and to point out the contributions, problems, and goals of various minorities. It is offered for 10-11-12."

"We use pamphlets on black history, films, film strips, tapes, records, and paperback books as materials in the course."

"The course has uncovered some of the false ideas people have. In that way it is a success. It is also a forum to discuss and investigate facts and events a regular history class could not."

"Next year, the text will change and also the organization of subject matter will present more emphasis on individuals and less on movements."

NEW MINORITY CULTURES CLASS

INDUSTRIAL ARTS

Mr. Tony Gruelle, head of the Industrial Arts program, explains a bit about the role of his department: "We feel that Industrial Arts is an integral part of the general education of the students. It offers those learning experiences which assist boys and girls in understanding the industrial and technical aspects of life today."

"Basically, Industrial Arts is an instructional workshop which provides sound educational experiences."

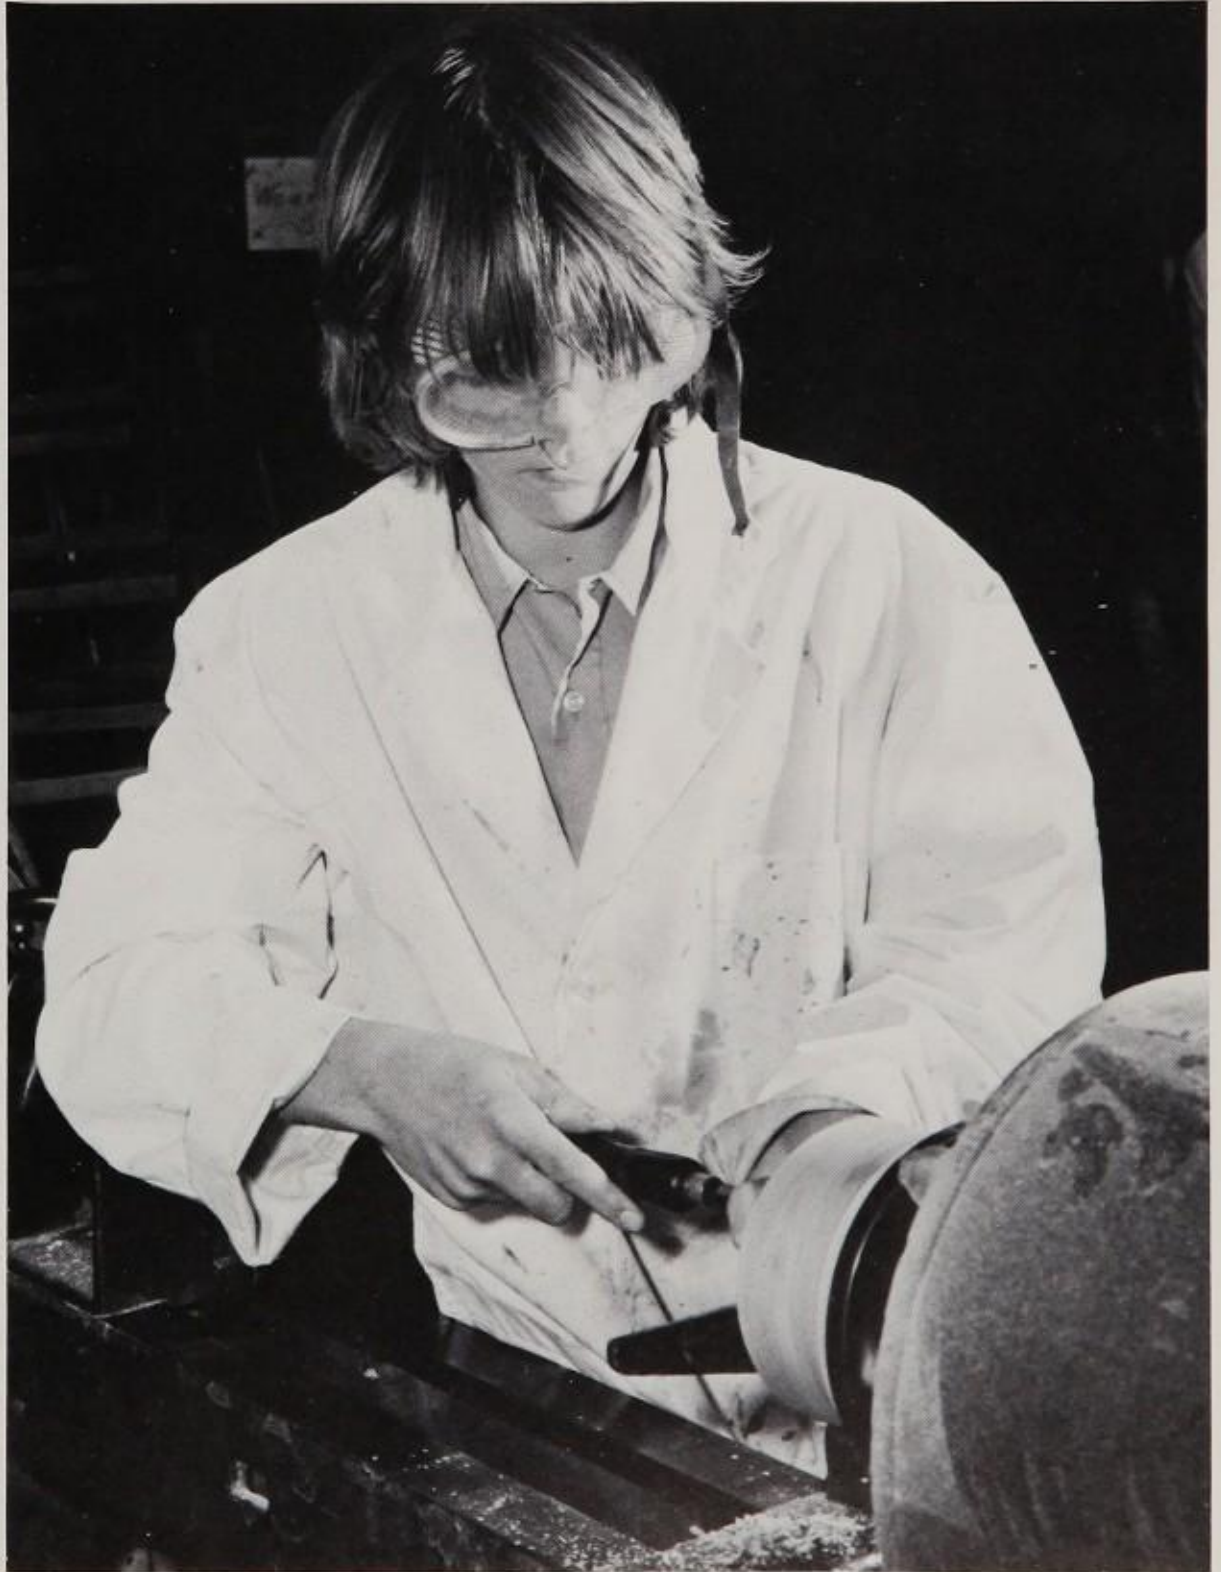

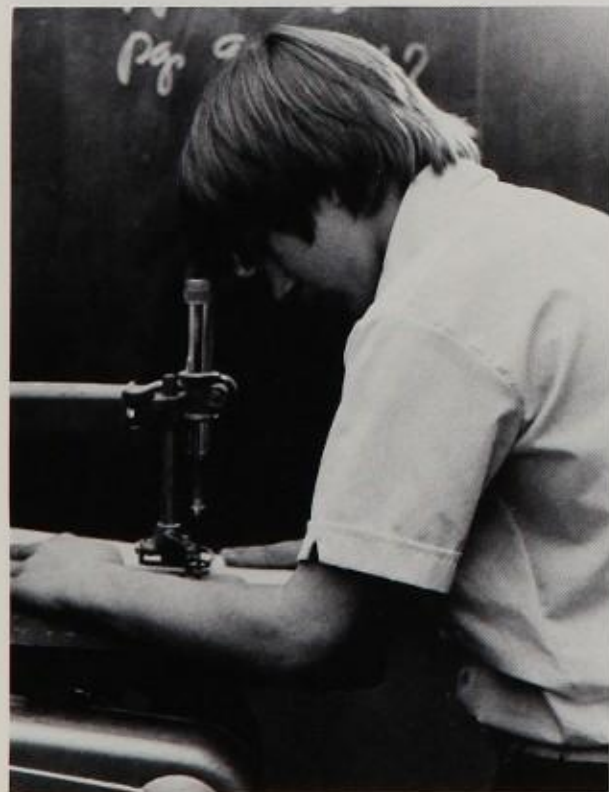

"To improve our course, it would help to have more girls take some of these classes. We are trying to develop more courses, such as ones in electricity, plastics and machine shop. We also want to try to furnish more information on industry for students and take some field trips to some of the larger industries to show the students just exactly how these industries look and operate."

Top — Mr. Gilfedder's students operate a planer. Middle — Mr. Ahmed Sabie aids a drawing student. Bottom — Mr. Ed Sellers checks Kevin Jackson's workmanship.

COMMERCIAL ARTS

Mr. Ben Hemingway, our bookstore manager, teacher and head of the business department is excited about innovations this year. "We have a new Business English course, taught by Mrs. Judy Deatherage, Business Math courses, taught by Mr. Lynch and Mr. Jenkins and our new Cooperative Office Educational Program (see page 116), coordinated by Mr. Seta. In this program, students attend classes here for three hours and then work in the afternoon in a class related job. This is probably the most important aspect of the business department; we have a curriculum that is changing to meet the needs of today's students in the business world."

"In the future, we would like to see more testing and evaluation programs, a model office practice class itself and some more specialized classes for special students.

"Our department is very practical. It simply prepares students well to work at specific jobs in the real world of work."

Top Left — Mrs. Deatherage checks calculations. Middle — Mrs. Hargis listens intently to Kevin Hallau's question.

PRACTICAL ARTS — HOME ECONOMICS

Mrs. Mary Eva Howard, clothing instructor: "I feel that our opportunity to work individually with students on subjects that are relevant is the most important aspect in our subject area. Several examples come to mind, including personal and family relationships, management of money and other resources, nutrition, clothing and so forth."

"Of course, we always want to keep our courses up to date, and we want a flexible curriculum, one that can change with the times. For instance, we would certainly like to see the addition of boys to the home economics classes, as they have done in many other schools."

"Our department attempts to educate for effective home, family and community living. We strive for such goals as being able to make wise decisions; developing critical thinking, developing skills in the areas of food and clothing, and managing and using wisely all resources. These are necessities in today's society."

PHYSICAL EDUCATION

"Physical Education has some new aspects this year." Ms. Joan Mitchell, head of the program, told us about them. "For one thing, we have our own Weight Watchers group. And we have our own home made movie room for loop films."

She continued, on the importance of physical education: "It can contribute what no other subject area can — the physical development of the student, as well as the intellectual, social and emotional development."

"Our biggest needs are more outdoor facilities, like an all-weather tennis court, and a track and general play area."

"Basically, physical education agrees with and strives to accomplish the goals of education. The primary difference between physical education and the other subject areas is the medium used to create experiences. The methods and the medium may differ, but the basic aims and objectives are the same — an improved individual with a positive outlook on life."

EDUCATIONAL TELEVISION DEPARTMENT

Dorothy Thompson is the lady responsible for Educational Television assistance in our school. In addition to regular educational programming, she oversees all videotaping done here at school. This year, Miss Thompson presented *Great Expectations* and *The Red Badge of Courage*, which were taped directly from national television presentations. The convenience of the TV department allows students and teachers alike to catch shows they might otherwise miss, study and enjoy them in a group, where they can be discussed for their full value.

Below: Mr. Ben Hemingway, bookstore manager, discusses his inventory with some of his workers including, Alanna Loan, Mary Gosney and Kyla McCord.

REMEDIAL READING

Mrs. Carole Lacy, in her second year as our reading instructor, continues to fight the battle against one of the biggest problems in education — the inability of many students to read at their normal grade and age levels. With the aid of special audio-visual equipment, books and games, the hope is that this problem can somehow be remedied for the students in junior high.

Along with improving the students' ability to read, a big part of the program is concerned with increasing the students' desire to read good books. Much of this is accomplished by use of interesting books that are written on the individual student reader's level, and then progressing to more difficult books as the student's ability to read increases. Also, the paperback book's quality and low prices have aided greatly in this area.

With phase-elective English a certainty for the 1975-76 school year, several other reading courses are expected to be added to our curriculum, from the basic, remedial courses to the more complex, individual studies of some of the greater examples of the written word in the world's treasury of literature.

THE CLASS OF 1975

Mr. Frank Seta, coordinator of this brand new program, tells us, "This whole program was suggested by the Board of Education. They asked us to make a study, and we found a crying need for this sort of program. Since Holmes is a city school, the opportunity was right here, but it wasn't being taken advantage of."

"Now, we have fifteen students working regularly, a minimum of fifteen hours a week, with some of them making \$2.60 an hour. Many of these people will be hired permanently when they graduate. These are really good, well-paying positions."

Establishments that have helped Holmes and Mr. Seta in securing the jobs include the Board of Education, John R. Green Co., Spalding, Bubenzer & Grouse (Attorneys), Retail Credit Co., Covington Trust, Fifth/Third of Cincinnati, First National Bank of Covington, Second Federal and Sears & Roebuck in Covington.

The jobs are varied. "I have people doing teller work at the banks, bookkeeping, accounting, general secretarial work and some even run switchboards when they finish their main jobs", said Mr. Seta. "The important aspect of it all is that these people are getting on-the-job training and they are meeting people in actual public situations."

Mr. Seta went on to say that he had had "no problems with the program in all but a couple of cases", and that he thinks the students are "being accepted well by the business community."

As a fringe benefit, some other students have received jobs because of contacts established with the business community.

"Next year, we hope to furnish more information on this program to the prospective student workers. We want to get it all down in black and white."

[illegible]

THE COVINGTON BOARD OF EDUCATION 1975

The individuals who comprise the Covington Board of Education seek these non-paying positions because they are interested in the welfare of the young people of this city. Many times, the job of the board member is a thankless one, but the members feel that inner glow of satisfaction when some problem works out right, much like the glow a classroom teacher has when he knows he has presented an interesting lesson.

Board Chairman, Berry W. Mang, Jr., right, chats with Mr. Marsden Gribbell, Director of Pupil Personnel, about revamping of his department.

THE PRINCIPALS

Mr. Fred Moeves

Mr. Moeves leaned forward in his chair and thought for a moment. "Well, I think one of my most important jobs here is establishing effective communication between the administration, faculty and the students. And I will admit that more of this is needed. Our size here is a big obstacle, very difficult to overcome."

"On the other hand, the self-satisfaction that you are doing something worthwhile, something positive, makes it enjoyable. A student may come back three years later and say, 'I realize now that you were right'."

"Sometimes I feel I do the work of two people, because there is so much detailed work in my job. I'm behind the scenes; sometimes so far behind them that it seems I'm invisible. Though what I do is important, the teaching and other educational aspects of the school are, by far, most important. We all have the good feeling of 'pitching in'. I think the kids here are just great. Sometimes they seem to be the only reason for staying. They keep us all young."

"BACKBONES OF THE SYSTEM"

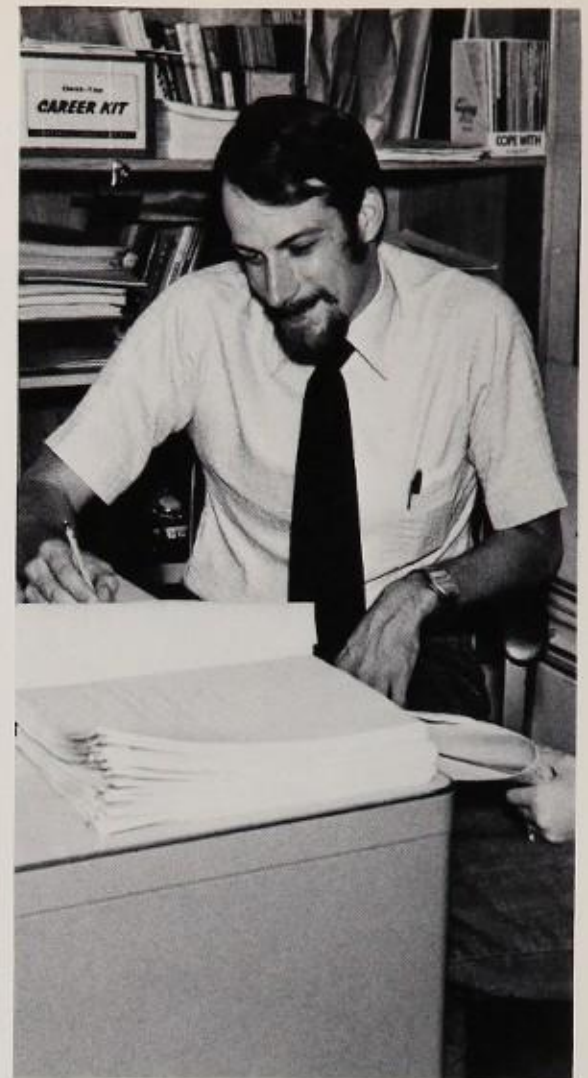

THE COUNSELING STAFF

Mr. Bill Arnold

Miss Margaret Stephens

Mr. Richard Poe

The counselor's job, as seventh and eighth grade counselor Penny Smith sees it, is not simply testing and scheduling. A much more human concern surfaces when she discusses her role in the school: "I see my job as one of supplying information and coordinating community services to the students. I try to help the students understand themselves better, try to make them more aware of themselves as unique individuals. I really enjoy my role, and much prefer talking and working with the students over the routine work in the office. To me, the biggest problem in schools today is the rigidity; too many times, strict rules and regulations make students feel unlike individuals and more like one mass creature. I try to develop the idea that though we all live somewhat routine lives, each one of us has a place as a worthy individual."

Ms. Donna Rouse

Mrs. Penny Smith

THE DEANS

Mrs. Marie Lancaster

Mr. Robert Logsdon

Mrs. Mary Frances Walden

Miss Wanda Brewer

Mr. Paul Veldhaus

Mr. Melvyn Carroll

To many, the deans may seem to be totally concerned with attendance and discipline. But when queried, they have other priorities. Miss Wanda Brewer, Sr. Girl's Dean, says "I try to create interest in coming to school, and I get some satisfaction when I see students improving in this area. Class associations are probably what most students will remember about high school." The biggest problem? "Lack of study."

Newly appointed Sr. Boy's Dean, Mr. Bob Logsdon, sees his role as "Helping the student in any way possible to make the necessary adjustments to become a responsible citizen. I like to be able to see and to feel that something I've said or done has helped someone else." The biggest problem? "Lack of morals and self-pride."

"OVERSEERS OR MOTIVATORS?"

THE NEW DRUG INFORMATION CENTER

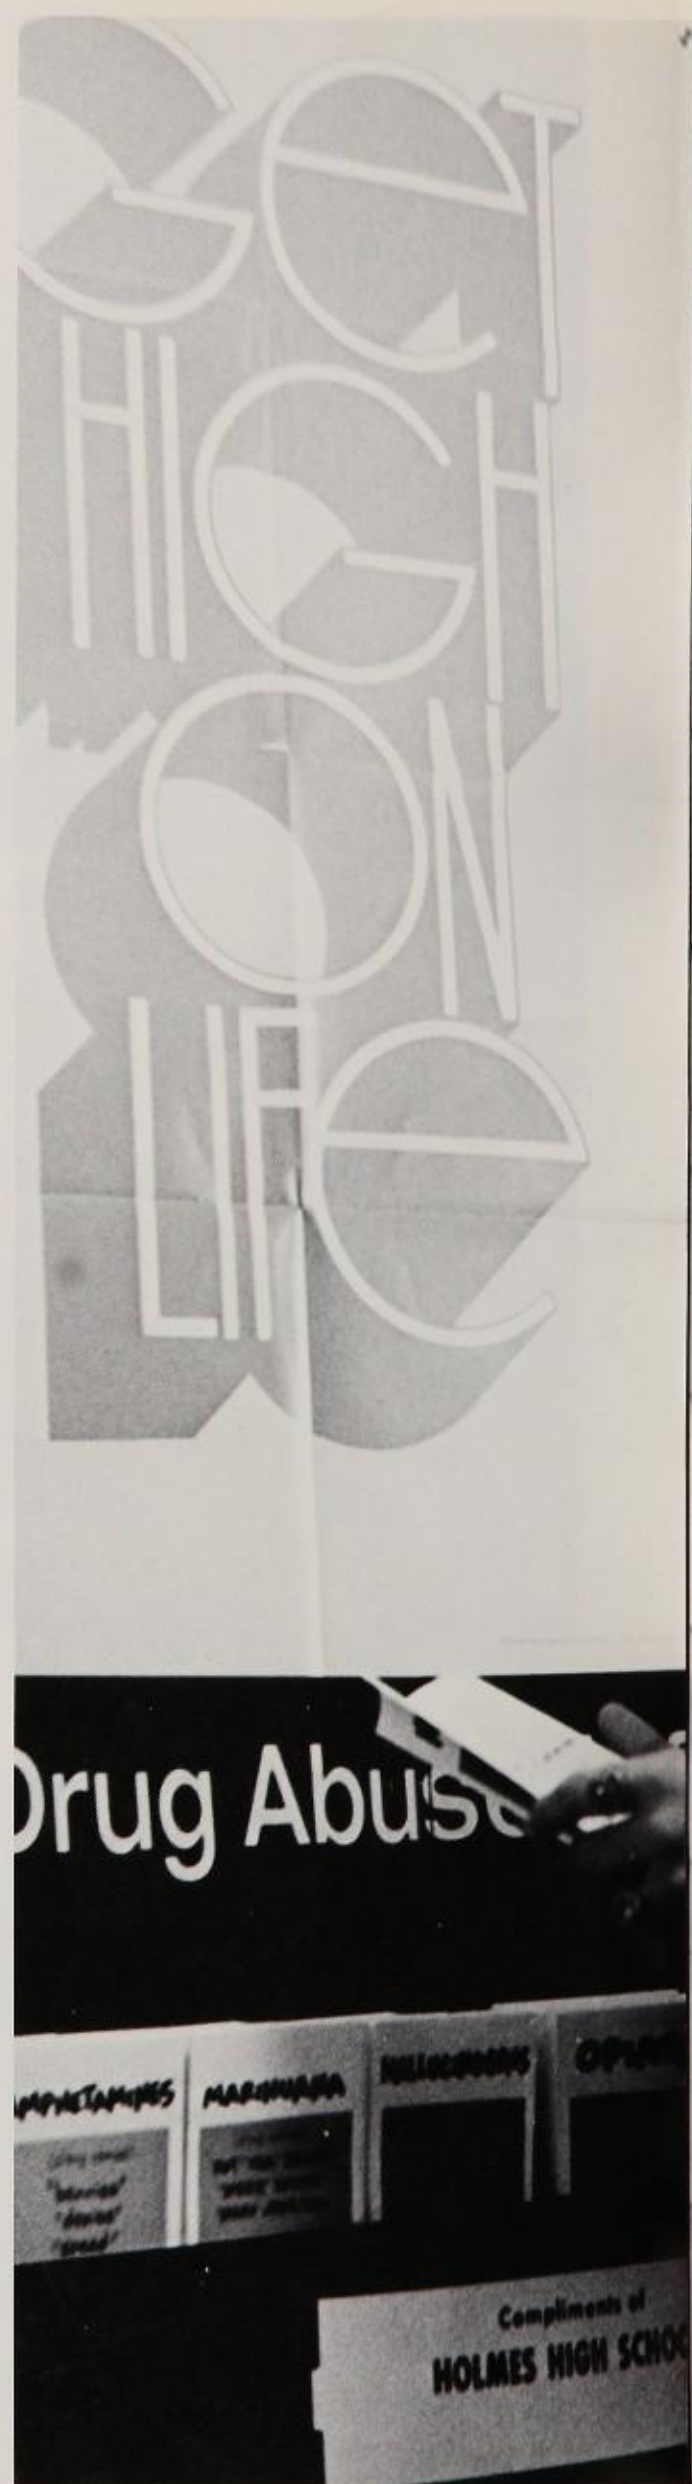

Ms. Donna Rouse, head of our new drug information center, told us a bit about it:

"Our goal is to educate the students so that they know what types of drugs exist and the effects of these drugs. We want them to learn about the beneficial use of drugs and the legal aspects of drug use and abuse. Mainly, we hope that the student learns that drug abuse is a people problem and realizes that there are alternate ways of coping with these problems."

"The need for this center was established through the use of a drug survey last spring. A random sample of all student levels was taken, and many indicated social or experimental use of various drugs. They stated that they would like some 'scare-free' information on drugs."

"Reaction has been favorable. Students like the idea that the information is there for the taking, and not being crammed down their throats."

"We want to have some speakers (ex-addicts) come in. And we are going to purchase more filmstrips and cassettes, and use the room for 'positive motivation' groups."

"WITH A LITTLE HELP FROM MY FRIENDS"

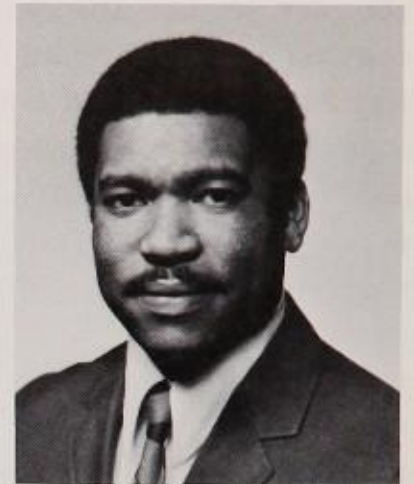

ADVISORY SPECIALISTS

Mr. Bill Arnold

Mr. Arnold: "This office grew out of the racial disturbances of the late 60's and early 70's. It was full-time then, but is part-time now, which is a good sign of the times."

"It is a great feeling to see two people of different races and backgrounds discuss and settle their differences, end hostilities and have mutual respect for each other."

Mr. Aaron Ballard

OCCUPATION INFORMATION CENTER

"Our center is a collection of materials that relate to careers. Teachers and students of all grades may use it. The center can be valuable if used correctly."

"Tied in with our center are the career clubs. They take field trips to learn about the world of work up close."

"Another part of the center is 'The Mean Green', a newsletter approach to careers distributed to all Freshman in the school."

"We can help."

THE LIBRARIANS

"We have increased the total of books in the stacks this year as well as the number of magazines available for leisure reading. Our new copying machine is an economical way for students and teachers alike to make a record of important documents or passages in books. And we are trying to get more teachers interested in using the library as a source for whole-class projects, especially research projects. In addition, we want all teachers to know that students may individually use any of the audio-visual equipment, as long as a pass is arranged from the teacher. This sort of individual study can be very helpful and the ways in which this study can be used are limitless. We like to think we can help everybody."

This school is a whirl of people and scenes. The whole gamut of emotions and events can be glimpsed as one makes a short tour of the huge, rolling campus and the four distinctive buildings. Serious discussions, light bantering, strenuous physical challenges and mind-boggling mental wrestling matches are occurring constantly. This is really what school is all about. And though one may never return to this place, all of these aspects of life in a school can never really be erased.

Tim,
a real rough
dude. Someone I
hope I will know
for a long time. We try
to get down sometime,
the summer & visit your
tree house. Stay cool.
Good Luck with everything.
Love Jammy
(Will be fine!)

W H E W . . . well, that's another year gone. Recording this year in words and pictures has been a real experience for all of us on the **Lest We Forget** staff. Before we go, we would like to extend our sincere thanks to all the students, teachers and administrators at **Holmes**, with a special thanks to all of our subscribers. Also, we would like to especially thank a few other individuals who helped us during the year: Mrs. Ruth York, LaVern Frazier, Mary Ann Denny, Robin Beach, Keith Sanders, Mike Sims, Betty Megerle and the photographers at Osborne Photo Lab, Greg Whalen of Hunter Publishing, Larry Apple of Interstate Photo, Cassie Bushong, and a special thanks to Dave Shipp who supplies us with many fine pictures. Thanks to each and every one for their patience and understanding of us in this large endeavor.

We truly hope that in the future, though you may not get back to this place, you will get back to the time with a journey through these pages.

Until next year . . .

Dear Mother
 I have just
 received your
 letter of the
 10th inst. and
 am glad to
 hear from
 you. I am
 well and hope
 this finds you
 the same. I
 am writing you
 now as I have
 some time
 to spare. I
 am not at
 all well at
 present but
 hope to be
 better soon.
 I am
